**1-7**
1
2
3
4

The order proceeds clockwise.
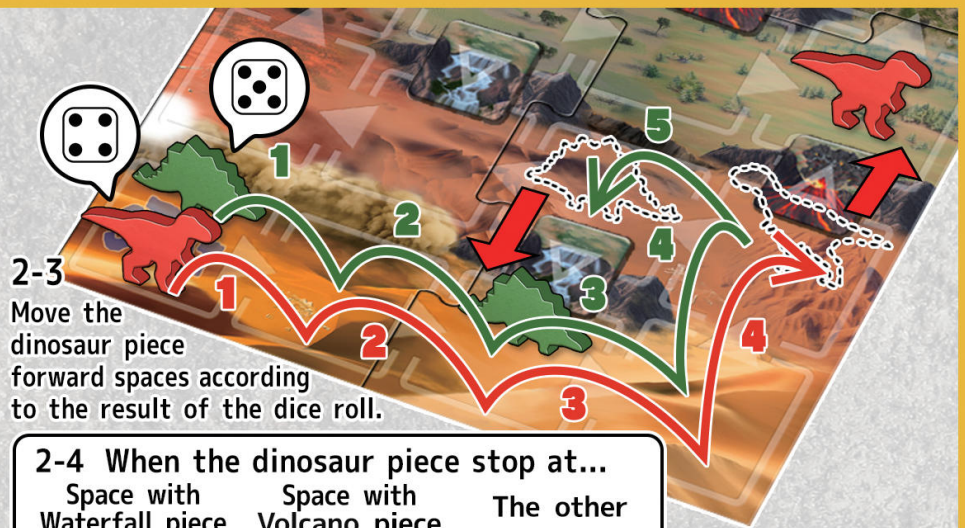

# 2. Start the game

### 2-1

Roll a dice once.

### 2-2
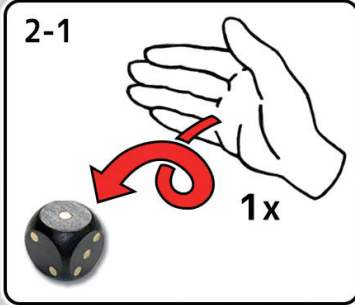

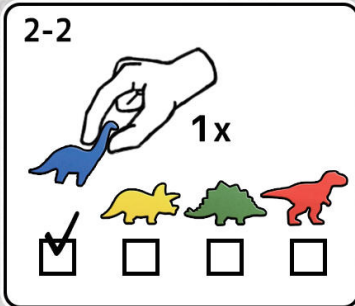

Choose one dinosaur piece.

### 2-3
Move the dinosaur piece forward spaces according to the result of the dice roll.

### 2-4 When the dinosaur piece stop at...

| Space with Waterfall piece on the underside, | Space with Volcano piece on the upside, | The other spaces, |
|---|---|---|
| Proceed down. | Proceed up. | Nothing. |

When you have finished moving the piece forward, the next player start his/her turn.
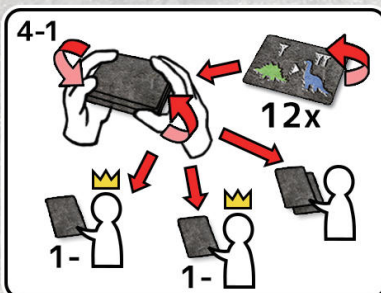

# 3. End of the game

### 3-1

Ⴤ : 🦖
ⴤⴤ : 🦕🦖

Once any of the dinosaur pieces reaches GOAL, the race will be finished, and arrival orders are determined.
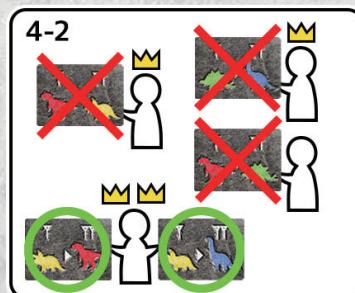

### 3-2

Every player with a ticket card showing the same arrival order as the result of the race wins the game!

# 4. Additional rules

### 4-1

In the second and following races, players who had won previous races start with one less ticket card in his/her hand.

### 4-2

The winner is the one who can get more than two winning cards in total.
